RE-ELECT
DENNIS ROGERS
for MAYOR

Our first term we focused on **building our foundation** (infrastructure) for a sustainable community.

This next term will be about **how we want our community to look.**

Secured more than $16 million in grants for town infrastructure.

Building on today. Planning for tomorrow.

What's next for our community?

Shaping tomorrow, together.

1. ARE WE OPEN FOR BUSINESS?

How do we work with businesses of all sizes to increase our level of customer service and remove barriers to doing business? What is our tourism plan? Kingsville has many strengths in our small and large businesses. We need to make it easier to do business as well as attract more tourists to our community.

2. HOW DO WE WANT OUR WATERFRONT TO LOOK?

In 2024, I brought forward a motion to add a Waterfront Master plan to our long-term strategic plan.

Our waterfront will have two areas of focus:
1. The Port, Mettawas Park & Lakeside Park.
2. Cedar Island and Cedar Beach

3. HOW DO WE WANT OUR DOWNTOWN TO LOOK AND BE PRESERVED?

In 2025, I brought a motion forward for administration to research design guidelines for our downtown core. This will include a sign bylaw as well as Cottam's downtown.

4. HOW DO WE WANT OUR GREEN SPACES TO LOOK?

A Parks master plan is already a future project on our Kingsville 2040 Strategic Plan. I will ask council to support a trail master plan that will connect these green spaces.

5. HOW DO WE MEET THE CURRENT AND FUTURE NEEDS OF OUR RECREATION FACILITIES IN KINGSVILLE & COTTAM?

A recreation master plan is already a future project on our Kingsville 2040 Strategic Plan.

HOW DO WE ACCOMPLISH THESE GOALS?

- Establish a task force for each item that will be comprised of residents, stake holders, business owners, staff and 1-2 council members.
- This task force will shape how to go about the process, how its going to look and how much it will cost.
- This detailed plan will then be incorporated into a current/future budget or get put on the shelf as a shovel-ready project if grants or private investments open up.
- The goal is to have a costed and detailed vision composed by the community.

Building on today. Planning for tomorrow.

Why Re-Elect Dennis Rogers for Mayor?

STRENGTH AND EXPERIENCE MATTER.
OUR ROAD OF TOUGH DECISIONS ISN'T OVER.

- This job takes time to learn the ins and outs. Experience from day one matters.
- I have earned the trust and confidence of council and administration.
- I have built strong relationships with the province and within our community.
- A steady and consistent hand on the wheel as we continue to build on the strengths of our community.
